

## Class Baskets for Auction

This year, the auction committee is asking each class to put together a box or basket that will be auctioned off at our event. Each basket should have a theme and be valued at \$300 or more. We are asking room parents to take the lead in coordinating the baskets for each class. As the room parent, you may elect to coordinate the basket yourself, or ask another parent to take the lead. Below is a list of parents who have already voiced an interest in facilitating their class basket and themes that have been assigned.

Please let us know what theme your class chooses, and who in the class will take responsibility for coordinating the effort. We hope that each family in the class will participate in procuring items for the basket. Assigned so far:

### Guidelines for the Box/Basket:

- Contents are all relevant to the chosen theme
- Total value is \$300 or more
- Contents may be procured as donations or purchased
- Each item included needs to have a corresponding procurement form turned in (available in the office, at the entry to the school, and attached to this email)
- Package or wrap all items together in a decorative box or basket. Box/baskets will be prominently displayed at the event and presentation counts!
- Include an itemized list of the basket contents so that bidders know what is included
- Assemble a basket that you would enjoy bidding on – we are looking for highly desirable items
- Complete baskets are due by February 28, 2018
- Have fun!
